Apartment Moving Services

Urban apartment moves come with unique challenges: narrow staircases, lift restrictions, tight parking, and floor protection requirements. What's Included

- Customs paperwork & declarations
- International shipping coordination
- Multi-language communication support

- Guidance on temporary import regulations

We serve all major European destinations and can advise on country-specific requirements during your free initial consultation.

Kapitel 4

Storage & Specialised Services

Flexible solutions for every stage of your move.

Secure Storage Solutions

Sometimes a move doesn't happen in a single day. Whether you're bridging a gap between leases, renovating your new home, or simply need to store seasonal items, Butler Umzüge GmbH offers secure, clean, and accessible storage facilities. Short-term and long-term options are available to suit any timeline.

Secure Facilities

24/7 monitored storage with restricted access and alarm systems.

Climate-Controlled

Regulated temperature and humidity protect sensitive items like artwork and electronics.

Flexible Terms

From a single week to several months – storage terms that work around your schedule.

Eco-Friendly Moving Options

Sustainable Relocation

At Butler Umzüge GmbH, we believe a great move doesn't have to come at the planet's expense. Our eco-friendly moving options are designed for environmentally conscious customers who want to reduce their carbon footprint without compromising on quality or service.

- Reusable plastic moving crates instead of cardboard boxes
- Biodegradable and recycled packing materials
- Fuel-efficient and low-emission vehicles in our fleet
- Optimised route planning to reduce emissions

Why It Matters

The moving industry generates significant packaging waste annually. By choosing our eco-friendly options, you help reduce single-use plastics and unnecessary emissions – a small choice that makes a meaningful difference.

- 📄 Ask about our Green Move package during your consultation – it's often the same price as a standard move.

Kapitel 5

Health Insurance & Moving

Did you know your Krankenkasse may support your relocation costs?

Health Insurance and Moving Services

A lesser-known but highly valuable benefit in Germany: in certain circumstances, statutory health insurance providers (**Krankenkassen**) can contribute to or fully cover the costs of a relocation. This applies particularly when a move is medically necessary – for example, to improve living conditions, enable better access to care, or support rehabilitation. Butler Umzüge GmbH is an experienced partner for exactly these situations.

Wohnumfeldverbessernde Maßnahmen

Under German social law, health insurers can fund so-called **Wohnumfeldverbessernde Maßnahmen** – measures that improve the living environment of insured persons with care needs. If a move is required to make a home more accessible or suitable for a person's medical condition, the Krankenkasse may provide a subsidy of up to **4,000 € per measure** (up to 16,000 € for shared households).

Who Qualifies?

Persons with a recognised care level (*Pflegegrad*) whose current home is no longer suitable for their needs.

What's Covered?

Moving costs, adaptations to the new home, and transport of medical aids and equipment.

How to Apply?

Submit an application to your Krankenkasse before the move. Butler Umzüge GmbH can assist with documentation.

IKK Classic – Umzugskostenzuschuss

About IKK Classic

IKK Classic is one of Germany's major statutory health insurers, serving members across the country. Their relocation subsidy programme supports insured members who need to move for medical reasons, covering portions of the moving costs incurred.

IKK Brandenburg und Berlin

Residents insured with **IKK Brandenburg und Berlin** may be eligible for moving cost subsidies when relocating for health-related reasons. As a Berlin-based company, Butler Umzüge GmbH has particular expertise in supporting members of this insurer with compliant, documented moves.

IKK Brandenburg

Support for members in the state of Brandenburg relocating for medical necessity.

IKK Berlin

IKK Gesund Plus

Nationwide Reach

- Coverage for professionally organised moves
- Reimbursement for packing materials
- Support for transport of medical equipment

Our Role

Butler Umzüge GmbH provides IKK Gesund Plus members with proper invoicing, documentation, and support throughout the claims process. We know exactly what the insurer requires and ensure your paperwork is correct from the start.

hkk Berlin – Umzugskostenerstattung

[Mehr erfahren](#)

How We Help

We work directly with hkk-insured customers to ensure that all invoices, service descriptions, and supporting documents meet the insurer's exact requirements for reimbursement. Our goal: you receive the maximum possible refund with minimum administrative effort.

- Insurer-compliant invoicing
- Supporting documentation for your claim
- Expert advice throughout the process

How to Apply for Your Moving Cost Subsidy

It is essential to apply for your subsidy **before** the move takes place – retroactive applications are generally not accepted. Butler Umzüge GmbH guides you through every step of this process.

Health Insurance-Approved Movers

Not all moving companies are equipped to handle the specific documentation and compliance requirements associated with Krankenkasse-supported moves. Butler Umzüge GmbH has extensive experience working alongside health insurance providers across Germany, ensuring that every move meets the required standards for reimbursement eligibility.

Certified Professionals

Our teams are trained in the specific needs of health-related relocations, including the transport of medical aids.

Medical Relocation Services

Moving for Health Reasons

When a relocation is driven by a medical condition – such as moving closer to a specialist clinic, relocating to an accessible ground-floor apartment, or transitioning to supported living – the move itself must be handled with particular sensitivity and expertise.

Our teams are briefed on the unique requirements of medical relocations and work with empathy, patience, and discretion throughout.

Specialist Support Includes

- Transport of medical devices & mobility aids
- Coordination with care providers at destination
- Accessible vehicle options for vulnerable individuals
- Flexible scheduling around medical appointments
- Full documentation for insurance claims
